THE NEWS BY THE CALEDONIA. We give to-day copious extracts of the important news brought by the steamer Caledonia, (says Monday's Baltimore Sun.) The cloud that has hung over Great Britain for several months past, still becomes darker and more portentous, and the banks are commencing to totte along with the commercial community. Indeed, it seems a matter of doubt whether the Bank of England, which has no power to retard the downward progress of the commercial and monetary interests of the nation, will be able to resist the shock. Its suspension seems inevitable, which would complete the commercial distress that pre-vails. The New York Sun, in reviewing the character of the news and the condition of Grea

Britain, says :"The English government has caught the alarm With all its impiense resources, the present tre-mendous crisis threatens to overwhelm it. British credit lies in ruin, its commercial glory writhes under a blow from which it can never recover. The Mayor of Liverpool, attended by a civic deputation, has proceeded to Loudon to represent the distress of their city at the foot of the throne, and Sir, Robert Peel is conferring with similar delegations, to devise, if possible, some means of relief. It is not improbable that the Realish Government will solicit aid in its exthe English Government will solicit aid in its extremity of the United States. Mr. Bancroft, our Minister, has already held two interviews with

the Chancellor of the English Exchequer, which points directly to such an event.

"If such aid is asked, we hope that it will be promptly rendered! What a spectacle for the contemplation of the world. England, the empire upon whose possessions the sun never sets-which a few months since was arbiter of commerce over three-lourths of the globe, and whose credit was synonomous with gold in the hand, now lies pros-trate if not humbled in universal bankruptcy while the United States, a young child just sprang from her loins, saves her from famine—may save her from financial thin, and at the same time pursues its own high destiny, the absorbing of a continent to freedom.

London Monthly Tobacco Report.—Altho'

the Tobacco market has been without any ap-parent animation during the last month, a very fair amount of business has been transacted both for home use and for exportation. The manufacturers have bought but sparingly for the season—say about 600 hogsheads; but this may be accounted for by the scarcity of good and fine stript leaf, caused by the late arrival of the last crop. For exportation, about 400 hogsheads have been sold, chiefly of good spinning Kentucky leaf, at 31 a 31d, and for a very few and very fine light and leaty, for cigar wrappers, as as high as 6d has been paid. A small parcel of about 50 hogsheads of Virginia leaf had also been taken at about 5d.

American.—In Virginia, sales have not exceeded 200 hids, and have chiefly consisted of alections of great and fine analytics for spinning:

selections of good and fine qualities for spinning; leaf at 44d, to 5d, and strips 54d, to 6d; in descriptions suitable for cutting purposes there has scarcely been any thing done. Of Maryland, the stock is so very trivial, that no transaction of consequence can be noted. A hogsread or two to a manufacturer now and then he utmost extent of the business done. Kentucky Leaf and Strips: Although the market has been comparatively quiet, sales may be estimated at 600 hhds., nearly equal quantities of leaf and strips; in some instances a triffing advance has en submitted to for se'ections of the latter, but he general character of the market has p esented no particular feature deserving remark.

THE FOREIGN NEWS .- The arrival of he English mail fully confirms the disastrons intelligence communicated by telegraph, relative to the prevalence of commercial embarrassment in Great Britain.

It will be noticed that to make up a long list, all

the failures of every grade are put in. Many of them are really of no importance. The Barings have a list, which is much shorter, and perhaps more important We have added from their letter all which were not in the list of the Liverpool imes .- [N. Y. Journal of Commerce.

A N D C O A L PROPERTY.

In pursuance of a decree of the Superior Court of Chancery, for the Richmond Circuit, made on the 29th June, 1847, the undersigned will offer for sale, on WEDNESDAY, the 10th day of November next, if fair, if not, the next fair day, the following valuable Estates, lying on James river and Tuckahoe creek, viz:

No. 1.—The upper Plantation, adjoining the lands of Thomas Mann Candolph, Esq., containing, by recent survey, 1,250 acres, a large portion of which consists of River Low Grounds, 250 acres being on Tuckahoe listand, with a considerable body on Tuckahoe creek. This tract is situated immediately in the line of coal formation, having pits now in successful operation on each side of it—and a few years ago Coal Mines were extensively worked on the premises. A thick seam of coal on the land adjoining this tract has lately been opened and worked nearly to the line. It is believed that no lands in Virginia offers more favorable prospect for those who wish to engage in the coal business.

This Estate lies in a compact form—the buildings are near the centre of the open land, and the whole of it is in excellent heart.

No. 2.—The tract formerly owned by James Currie, deceased, called ELLERNLIE, adjoining No. 1, and containing, by survey, 765 acres, of which about 200 acres are Low Grounds of the best quality. On this tract there is an excellent stuccoed brick Dwelling House, with an Ice House and other convenient out houses.

No. 3.—The lower Plantation, purchased of the late 50,000 DOLLARS! 5 of 10,000 DOLLARS! 10 of 5,000 DOLLARS—lowest three number \$500. Susquehanna Lottery, Class No. 52, to be drawn at laltimore on Wednesday, November 24, 1847. 78 Nos.,

500. House, with an Ice House and other convenienced houses.

No.3.—The lower Plantation, purchased of the late David Meade Randolph, containing, by survey, 691 acres, of which about 171 acres are River Low Grounds, 1,250 1,000 with a large body of second low grounds. There is a dwelling house on this tract, which, at a small expense, might be rendered a very confortable residence. No. 4.—A tract of Land hought of Thomas Mann Randolph, having thereon a grist, a saw MB1, and containing about 195 acres. On about 74 acres, at the SW corner of this tract, Mr. Randolph has reserved a right to dig coal. 13 drawn. Grand Capitals:

These tracts of land are contiguous to each other.—
They form a body of land of great fertility, and in the highest sate of improvement. Their victinity to Richmond, being distant from ten to twelve miles; the advantages of the caual, which passes at the foot of the hills, in a situation to do the least possible injury; the means it affords of irrigation and of a water power, there being a perpetual waste of water at two points, with the value of the coal property, make it perhaps the most valuable estate that was ever offered for sale in Virginia—near 300 acres have been limed with great benefit. About 1,000 bushels of wheat will be sown betore the sale. cate of Wholes \$180-ahares in proportion. 40,000 DOLLARS! 4 of 10,000 DOLLARS!
